Up/down stroke	200mm
Base diameter	594mm
Height	1050mm(Min.), 1250mm(Max.)
Weight	Approx. 105 Kg

Standard set

Foot switch	1 EA
-------------	------

Functioning

MC 4000A

With the pedal-locker released, the model of MC-4000 is so comfortably designed for manually manipulating the position of patients in a rotational direction only that doctors are able to diagnose and treat patients, easily, while the position of lift and reclination for patients remain automatic, driven by oil pressure mechanism, with the headrest & armrest rotated & fixed at the degree they desire.
