Weight	Approx. 9 Kg

### Standard set

Stethoscope type tip set	1 SET
--------------------------	-------

**Accessories** (choose only one)

※ This system is available for only right channel

# ME 3000

The ME-3000, Tympanic Stimulator, is designed for alleviating the pain of patients, who suffer from the otitis media, giving the pulsating air flow into a ear canal so as to make eardrum pulsated, consequently Eustachian tube's salpingitis functioned, in its original way.
